

We decided to use Bootstrap for all of our pages. The majority of our pages contents are held in a container div class, with rows separating each new line of content. For information regarding food drive hours, inventory, we decided to use the table class over using columns. This is because, when the browser window is minimized, the two columns stack on top of each other- which is of no good to anyone.

We decided to have the nav bar at the very top of the website, so that the end user can switch between pages easily. The three pages we decided to include for this project are as follows:

- Home
 - This is our weekly update section, where students would be able to look at updates to UMICHs food drive
- Inventory
 - This is where the end user will be able to see what's in store at the food drive, before they go over to pick up their items.
- About
 - This is where contact information, the history of the food drive, and working hours can be found.

History

In the summer of 2012, students and staff from the UM-Dearborn Community recognized that many students on campus did not have regular access to food. Understanding that food insecurity and inaccessibility was proving to be a barrier to students ability to be successful, the CIVIC team, in collaboration with various partners across campus, worked to create and establish the UM-Dearborn Student Food Pantry. The UM-Dearborn Student Food Pantry was officially dedicated on January 21, 2013, the day which marked the 20th anniversary of the University's MLK Day of Service. Since the Winter 2020 semester alone, the Student Food Pantry has distributed more than 17,000 pounds of food and personal items.
